GOODRIDGE LAUNCHES NEW BRAKE AND CLUTCH FLUID

Goodridge have added new brake and clutch fluid to the existing diverse range of fluid transfer system products.

The new fluid is available in both Performance & Race versions, carrying industry leading dry/wet boiling points, compatible with DOT 3 & DOT 4 braking systems.

The performance fluid is available in 250ml and 500ml volumes, rated to a dry boiling point of 269°C; perfect when switching your original brake lines to a Goodridge Premium Performance Brake Line setup or when looking for a fast road/track day fluid.

The race fluid is available in 500ml, specifically formulated for use by racing teams operating at championship winning level; with a dry boiling point of 312°C.

Goodridge Brake Fluid is available from Goodridge dealers and distributors globally, alternatively please visit the Goodridge online shop at www.goodridge.co.uk.
